
What is Horse Leasing?

Enjoy a risk-free way of having a horse of your own! You will have exclusive use of a particular horse and its equipment for an extended period of time as if it was your own! Various packages available. You can take your riding to the next level without the long-term costs and risk of a horse purchase.

Benefits of Horse Leasing:

By working one on one with a particular horse students will benefit from more time in the saddle, with the ability to ride as often as they want. Riders will refine their skills through focus on specific goals that will improve their equitation and partnership with the horse.

Availability of Horse Leasing:

Lease packages are open to all riders enrolled in PHC's Riding School at the jumping level.

Responsibilities of a Horse Leaser:

Riders will exercise their horses and ensure they are cared for by properly grooming them and maintaining their tack. Coaches will develop a customized training schedule with specific developmental objectives in mind.

PHC requires 30 days notice from the 1st of the month to terminate a lease contract.
