

What are Equestrian Canada Rider Levels?

The Equestrian Canada Learn to Ride program is a national program based on current standards of riding and the Canadian Long -Term Equestrian Development model. The English Learn to Ride program includes levels 1-10. The purpose of the program is to produce well-rounded horsemen and women, who are able to care for and ride their horses in a correct, safe manner. The Learn to Ride program is based on the Equestrian Canada English Rider Handbooks, Stable Management in Canada book, and additional resources (such as the Developing Equestrians Guidebook). The manuals outline the basic horse and stable management knowledge as well as expected riding skills for each level of certification.
